for the Office of Scientific Intelligence

1. PURPOSE

25X1A5a1

25X1A5a1 The purpose of this memorandum is to request renewal of the OSI external contract with [REDACTED] for the fiscal year 1965. This contract was initiated in January 1964 and is generally designated Project [REDACTED] 25X1A2d2

2. OBJECTIVES

25X1A2d2

25X1D6b The primary objectives of Project [REDACTED] are two-fold. Approximately two-thirds of the project's effort is devoted to analysis of [REDACTED]

5. SECURITY

25X1A2d2

An Agency employee from the Office of Security is in full time residence at Project [REDACTED]. The contractor has facilities which are Agency-approved for receipt and storage of materials at several classification levels. The Agency association with the contract will continue to be unclassified but on a need-to-know basis.

6. SPECIAL PROBLEMS

25X1A2d2

25X1D6b

25X1A2d2

25X1A2d2

When Project [REDACTED] was established, it was assumed that project personnel would at least initially have access to [REDACTED] and other data on file at ESS, an Air Force-sponsored project [REDACTED] Project [REDACTED] facility. Thus far, such access has been extremely limited by the Air Force. Action by OSI is now underway to alleviate this situation. In the meantime, the sponsor is attempting to build up an independent data base at Project [REDACTED] in order to minimize their dependence on ESS files.

7. COMMITMENTS

25X1A2d2

The contractor is aware of our continuing interest in Project [REDACTED] and submitted a proposal for renewal of the contract in early June 1964. OSI subsequently requested and received a revised proposal with costs reduced to a level which is compatible with the aforementioned OSI external research program for FY 1965.
